- Work Gloves!!! We do not have enough here at camp! Please bring your own pair in case you end up working outside, and consider making a donation of work gloves at the end of your week.

We have most tools that you should need to go out and help people. If you have available rakes, weed whackers, or any other tools to help people with their homes and yards, it can be very helpful to bring those. Also, we love glove and tool donations to Twinlow so we can continue to provide them to future IMP servants!

## What Not to Bring:

- Cell phones or other electronics

We strive to be an electronic and device free environment during our summer camp programs. All of our on-site campers here are asked to leave their devices at home and our staff does not have them as well while they are working.

As a mission group here at Twinlow, if you must use your device:

- Please choose a time and place away from the rest of the camp community, **OR**
- Try something new and put it away for the week!
  - Let your friends know you are on mission trip and will be back online on the way home.

We have wireless internet available for adults near our office or dining hall.
